EDUCATION

Kingston University   **Sept 2015 – May 2018,** Kingston
BSc, Computer Science (Hons)   ***Awarded a First Class***

Skills

TypeScript, JavaScript, React, React Native, Next.js, Node.js, Express, Rust, Python, C#, .NET, PHP, Vue.js, Flutter, Dart, PostgreSQL, MongoDB, Docker, AWS, GraphQL, HTML5, CSS3, TailwindCSS, Git, Storybook

COMMERCIAL EXPERIENCE

DroneCloud   **Feb 2024 – Jan 2025,** London
Software Engineer
- Developed core features of a SaaS platform for drone flight operations, including UI and backend services.
- Refactored large parts of a legacy monolith to improve maintainability and system clarity.
- Developed Node.js services for flight log parsing, data storage, and backend workflows.
- Led a major overhaul of the subscription and payments system, including redesigning the admin interface.
- Maintained and extended frontend features using React and Tailwind.

React, TypeScript, AWS, Node, Express, PostgreSQL, Mongo, Docker, Git, HTML5, CSS3, TailwindCSS, StoryBook

CoLoop   **Aug 2023 – Oct 2023,** London
Software Engineer
- Built a transcript parser to process and structure automated transcripts from multiple providers.
- Added and improved UI features in the dashboard using React and Tailwind.
- Worked on both backend and frontend React components.

React, NextJs, TypeScript, Python, AWS, tRPC, Docker, Git

NTT Data   **Mar 2022 – Jan 2023,** London
Software Engineer/ Consultant
- Worked on an internal dashboard for a major telecoms client, used by staff during customer calls.
- Delivered UI features collaboratively with the client's development team.
- Ran internal knowledge sharing sessions on frontend practices and tools.

React, React Native, TypeScript, GraphQL, Node, Git, HTML5, CSS3

Moblox   **Oct 2021 – Mar 2022,** London
Front-end Developer
- Built a customer-facing web app that pulled content (videos, blog posts, copy.) from a headless CMS.
- Delivered responsive, reusable React components.
- Used Storybook for component development and collaborated with designers to maintain a consistent UI.

React, NextJs, TypeScript, AWS, GraphQL, HTML5, CSS3, StoryBook

Salespoint Ltd   **Aug 2020 – Sept 2021,** Remote

Full-stack Developer

- Worked on multiple client projects, liaising directly with stakeholders to derive requirements and build solutions.
- Took ownership of a Zoom API integration project, handled research, implementation, and delivery end-to-end as a junior developer.
- Mentored an apprentice, providing support with pair programming.

JavaScript, VueJS, PhP, MySQL, HTML5, CSS3
